

## Letter of Recommendation #1

---

To whom it may concern:

In the September of 2010 until June of 2011 – AE of Ohio was one of the sub-contractors working for Johnson Controls Inc. on Juvenile Justice Center flood recovery project in Nashville, Tennessee. Jim Kornman was the project management and personally supervised all of the work supplied by the security integration team from AE of Ohio, Inc. as part of their assignment for recovery/repair of existing security components along with design/installation of a new security system for the above noted Juvenile Justice Center facility in Nashville, Tennessee.

Mr. Kornman provided the security integration project management, system integration design/review and programming on this project.

Mr. Kornman and the AE of Ohio, Inc. project staff satisfactorily completed this project according to the specifications provided by the City of Nashville and Johnson Controls. We are very pleased with the professionalism, attention to detail, quality and the adherence to the project's accelerated schedule that the AE of Ohio staff brought to the project team.

I plan to make every effort to see that AE of Ohio is listed as approved security system integration contractors for any future security projects that I might have and I would highly recommend them to others for any similar security project assignments.

Sincerely,

A handwritten signature in blue ink that reads 'Kenneth Crews'.

Kenneth Crews  
Sr. Project Manager  
PB/Heery  
Nashville Metro Flood Recovery Team
